

Letter of Recommendation

I would like to firmly recommend Rounak Jha for admission to the graduate program at your university. I have known Rounak for about 1 year now as an undergraduate student in Bachelors in Computer Engineering Engineering. I taught him Software Engineering.

I recall Rounak as a sincere and hardworking student. He maintained excellent academic performance throughout his undergraduate ranking among the Top 10% students of his batch. As an instructor and his supervisor too I had enough opportunity is observe his capabilities closely.

I supervised him in his project sdf. I could observe his keen interest and aptitude for research while working on the project. In fact, he was also able to publish a paper on dsf.

I have noted his good presentation skills while he presented his work at our department as well as in the conference. I have seen that he has good leadership capability and has a teamwork spirit. He is very helpful and cooperative student. He eagerly handed over his project work to his juniors who wanted to further continue the research on the topic along with proper guidance and resources. I have also been impressed by his communication skills during project presentations and lectures.

I appreciate his technical and professional skills. Besides academics, he was also involved in several extra-curricular activities . He participated in various competitions organized in and off the campus. Unlike, most students who limit their project to an academic exercise, he actually deployed his project publicly in our server and maintained it.

I am quite confident that Rounak's skills coupled with academic capability will make him a good candidate for your university. Thus, I would highly recommend him for the graduate program at your esteemed university. Please feel free to contact me if further enquiry is required.

Aman Shakya,

Professor,

Department of Department of Electronics and Computer Engineering Engineering

Pulchowk Campus, Institute of Engineering, Tribhuvan University
