## 1. Student Registration

**REGISTER STUDENT**

Full Name : Netis Poudel

Password : \*\*\*\*\*

Confirm Password : \*\*\*\*\*

Roll Number : 076BCT099

Date of Birth : 2000-12-06

Gender: ☒ Male ☐ Female

Department: BCT▼

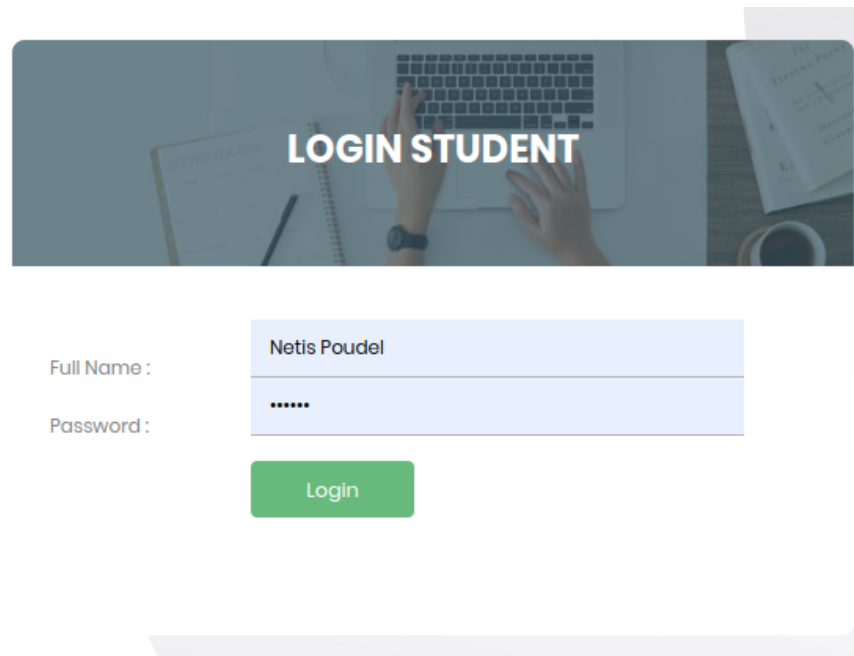

Program: BE▼

Login

## Queries

- A. `SELECT * FROM StudentLoginInfo WHERE  
StudentLoginInfo.roll_number = '076BCT099'`
- B. `INSERT INTO StudentLoginInfo ("username", "roll_number",  
"department_id", "program_id", "password", "dob", "gender")  
VALUES ('Netis Poudel', '076BCT099', 1, 1,  
'pbkdf2_sha256$260000$mv9YtEyN6ksuX8QLzgiLlN$fmtSW3mC/oh9RGtM/  
Oe9Ql0/p6wc737eLkrROIqQCB4=', '2000-12-06', 'Male')`
- C. `UPDATE StudentLoginInfo SET username = 'Netis Poudel',  
department_id = 1, program_id = 1, password =  
'pbkdf2_sha256$260000$mv9YtEyN6ksuX8QLzgiLlN$fmtSW3mC/oh9RGtM/  
Oe9Ql0/p6wc737eLkrROIqQCB4=', dob = '2000-12-06', "gender" =  
'Male' WHERE StudentLoginInfo.roll_number = '076BCT099'`

## 2. Student Login

The image shows a student login interface. At the top, there is a header banner with a background image of a person's hands typing on a laptop keyboard, overlaid with the text "LOGIN STUDENT" in white. Below the banner, the login form is displayed. It consists of two input fields: "Full Name :" and "Password :". The "Full Name :" field contains the text "Netis Poudel". The "Password :" field contains a series of dots. Below these fields is a green "Login" button.

**LOGIN STUDENT**

Full Name : Netis Poudel

Password : .....

Login

### Queries

```
A. SELECT * FROM StudentData INNER JOIN StudentLoginInfo ON  
    (StudentData.std_id = StudentLoginInfo.roll_number) WHERE  
    StudentLoginInfo.username = 'Netis Poudel'
```

### 3. Fill out Form-1 (After Student Login)

#### Hey Netis Poudel!

University's Email	Requesting Professor
<input type="text" value="076BCT099.netis@pcampus.edu.np"/>	<input type="text" value="aman_shakya   aman"/>
Years professor has known you for:	Subjects
<input type="text" value="2 years"/>	<input type="text" value="Select Subject"/>

```

## 11. Generate a Letter (After the professor submits the student's qualities)

### Letter of Recommendation

I would like to strongly recommend **Netis Poudel** for admission to the graduate program at your university. I have known Netis for about 2 years now as an undergraduate student in BE Engineering. Moreover, I was the supervisor for his final year project. I taught him DBMS.

I recall Netis as a sincere and hardworking student. In fact, he was the topper of his batch in BE Engineering. As an instructor and his supervisor too I had enough opportunity to observe his capabilities closely.

I was the supervisor in his project titled Peer to Peer File Sharing. I was quite impressed by his hardworking nature and learning capability. I supervised him in his project Mero Ghar. I could observe his keen interest and aptitude for research while working on the project.

I have noted his outstanding presentation skills while he presented his work at our department as well as in the conference. I have seen that he has good leadership capability and has a teamwork spirit. He is a very hardworking student who is always eager to learn. He is a well-spoken person with a friendly and gentle personality. He also has given his time to different social causes. He is very helpful and cooperative student. He eagerly handed over his project work to his juniors who wanted to further continue the research on the topic along with proper guidance and resources. I have also been impressed by his communication skills during project presentations and lectures.

I appreciate his technical and professional skills. Besides academics, he was also involved in several extra-curricular activities. He participated in various competitions organized in and off the campus. Unlike most students who limit their project to an academic exercise, he actually deployed his project publicly in our server and maintained it. He has worked in some IT companies which, I believe, has further added to his technical skills and professional experience.

I am quite confident that Netis's skills coupled with academic capability will make him a good candidate for your university. Thus, I would highly recommend him for the graduate program at your esteemed university. Please feel free to contact me if further enquiry is required.
